

The 'new' Brussels

by the water

COMBINATION BOAT TRIP + GUIDED VISIT THURN&TAXIS

Brussels has been laying on the banks of the canal for centuries, but the people from Brussels have looked upon this waterway in their city with contempt for a long time. Today, however, the canal has become the place to be. Besides its transport, tourism and ecological function, the canal is also a place to live, to work and to recreate. Numerous urban projects have been completed or are under development. The site of Thurn&Taxis is an example of the evolution that the canal has seen. From a storage of merchandise, the location has been renovated into a beautiful modern business and commercial complex, respecting the previous architecture.

10:30: guided tour in Thurn&Taxis.

The site of Thurn&Taxis, a historical depot and old customs station, is now a multifunctional location open to all public. These magnificent buildings house offices, shops, restaurants and exhibitions. Explore the development and evolution of this remarkable place in Brussels.

12:15: end of the visit and walk to the canal, accompanied by guide (10 minutes on foot).

12:30: boarding at Saintelette / av. du Port 6 and departure of the guided boat tour through Brussels and the Northern area. From the water you discover a canal environment in full transformation. In addition to existing historical monuments, new commercial complexes, museums, a cruise terminal, beautiful lofts and recreation areas rise from the ground. We sail through the Green Belt along Grimbergen, Kapelle-d-Bos and Zemst. Here, nature has the upper hand.

16:30 (+/-): end of boat trip Saintelette, Brussels.
